🔗 Portfolio

PROFESSIONAL EXPERIENCE

MEAN STACK DEVELOPER

NTI MEAN Stack Trainee 🔗

Technical Backend

Backend Core team at GDG Benha

Technical Frontend

Frontend Core team at GDG Benha

EDUCATION

Scientific Computing

Benha university

09/2023 – 06/2026

I am a passionate Full Stack Developer with a strong interest in building scalable and efficient web applications. I have hands-on experience working with modern backend technologies such as Node.js and MongoDB, along with frontend tools that help create responsive and user-friendly interfaces.

I enjoy solving real-world problems through code and continuously improving my skills by learning new technologies like TypeScript and advanced backend concepts such as authentication and authorization. I am also familiar with version control systems like Git and always strive to write clean, maintainable code.

I am currently focused on growing as a freelancer, delivering high-quality solutions that meet client needs while standing out through my attention to detail and commitment to continuous learning.
